Clay County SOE Reassures Voters about Unwanted Text Messages

Clay County Supervisor of Elections Office has been alerted to several reports of voters receiving text messages from political parties regarding their Vote by Mail ballot status. A few things to keep in mind:

- Your voter file is a public record. While the Federal Communications Commission (FCC) discourages companies from texting you without your consent, political parties are exempt, even if you are on the “Do Not Call” list.
- The content of the text messages tends to have inaccurate or misleading information.
- Clay County voters are able to track the real status of their mail ballot and verify their vote at our official website www.TrackMyClayBallot.com.

While the texts may be unwelcome, we stress the fact they are from third party sources and not from our office. In the event there is an issue with your Vote by Mail ballot, we will contact you, but never by text message.

For more information, visit our website www.ClayElections.com or call (904)269-6350 if we can assist you.
